For your convenience, these products are stocked in our Central Service Center. Orders placed before 2pm are available within 1 business day for MD, VA, and Raleigh NC locations. Greensboro NC ships within 48 hours.
### Metropol Classic

- **Metropol Classic Widespread Lavatory Faucet**
  - Lever Handles / Pop-Up Drain / 1.2 GPM
  - Chrome: HG31330001 $427.05
  - Brushed Nickel: HG31330821 $542.10

- **Metropol Classic Wall Mounted Tub Spout**
  - Chrome: HG13425001 $113.75
  - Brushed Nickel: HG13425821 $144.30

- **Metropol Classic Floor Mount Tub Filler**
  - Chrome: HG31445001 $1,367.60
  - Brushed Nickel: HG31445821 $1,736.80

- **Metropol Classic Roman Tub Faucet**
  - Lever Handles / 3-Hole Rim Mounted / Ceramic Cartridge
  - Chrome: HG31428001 $470.60
  - Brushed Nickel: HG31428821 $597.35

### Metropol

- **Metropol Widespread Lavatory Faucet**
  - Lever Handles / Pop-Up Drain / 1.2 GPM
  - Chrome: HG32516001 $431.60
  - Brushed Nickel: HG32516821 $547.95

- **Metropol Wall Mounted Tub Spout**
  - Chrome: HG32542001 $131.30
  - Brushed Nickel: HG32542821 $167.05

### Talis S

- **Talis S Widespread Lavatory Faucet**
  - Pop-Up Drain / 1.2 GPM
  - Chrome: HG72130001 $299.00
  - Brushed Nickel: HG72130821 $379.60

- **Talis S Wall Mounted Tub Spout**
  - Chrome: HG72410001 $102.70
  - Brushed Nickel: HG72410821 $130.65

### Talis E / Metris S

- **Talis E Widespread Lavatory Faucet**
  - Lever Handles / Pop-Up Drain / 1.2 GPM
  - Chrome: HG71733001 $232.70
  - Brushed Nickel: HG71733821 $295.75

- **Talis S Wall Mounted Tub Spout with Diverter**
  - Chrome: HG72411001 $122.20
  - Brushed Nickel: HG72411821 $155.35

### Metris E Roman Tub Faucet

- **Talis E Roman Tub Faucet**
  - 3-Hole Rim Mounted / Ceramic Cartridge
  - Chrome: HG71747001 $234.65
  - Brushed Nickel: HG71747821 $297.70

- **Talis E Floor Mount Tub Filler**
  - Chrome: HG72413001 $594.75
  - Brushed Nickel: HG72413821 $755.30

- **Metris S Wall Mounted Tub Spout**
  - Chrome: HG14413001 $117.65
  - Brushed Nickel: HG14413821 $149.50

- **Metris Floor Mount Tub Filler**
  - Chrome: HG31432001 $1,096.55
  - Brushed Nickel: HG31432821 $1,392.30

- **Talis S Floor Mount Tub Filler**
  - Chrome: HG72413001 $594.75
  - Brushed Nickel: HG72413821 $755.30

- **Talis S Floor Mount Tub Filler**
  - Chrome: HG72413001 $594.75
  - Brushed Nickel: HG72413821 $755.30

- **Talis E Roman Tub Faucet**
  - 3-Hole Rim Mounted / Ceramic Cartridge
  - Chrome: HG71747001 $234.65
  - Brushed Nickel: HG71747821 $297.70

- **Talis E Floor Mount Tub Filler**
  - Chrome: HG71747001 $234.65
  - Brushed Nickel: HG71747821 $297.70

- HG06646000 $259.35

**Hot Water Tempering Thermo Mixing Valve for Floor Mount Tub Fillers**
- HG0559116 $80.00
Water-Tight Seals All Around
Rubber seals on the housing and carrier plate create a water-tight installation. Any potential leaks drain into the shower compartment, not into the wall.

Built-In Service Stops
Allows easy servicing of the valve and other components.

Simplified Pipe Flushing
The rough can easily be flushed prior to installing the function block. Hot and cold water remain isolated while passing through the flushing insert.

Trim Includes Function Block
Function block is supplied with trim, not the rough, allowing trim to be ordered later in the process, which may reduce warehousing, theft, and damage due to dirt or frost during the building phase.

Reduced Noise Transfer
The brass function block rests on rubber seals, so pipe vibrations transferred to the wall will be reduced. The trim carrier plate attaches to the housing, not the function block, minimizing noise transfer to the finished wall.

180° Rotational Symmetry
Even if the rough is installed upside down, the trim can still be mounted to the rough, avoiding costly repairs.

Extension Set
Even if the rough has been mounted too deeply into the wall, the problem is easily solved with an extension set. The extension set (sold separately) ensures a water-tight seal, keeping the walls free from dampness.

Shallow Extension Set
Limited installation depths are not a problem, thanks to the shallow extension set. Simply installing the set between the tiles and trim allows for installation in walls as shallow as 2¼”.

Multiple Mounting Options
Multiple mounting points and depth options allow the rough to be installed with any commonly used mounting system.

10° Rotational Symmetry
Even if the rough is installed upside down, the trim can still be mounted to the rough, avoiding costly repairs.

Create Connection Fittings
When using copper pipes, connection fittings should be created prior to installation.

Install Connection Fittings
Clamp the rough in a vise using a ¾” nipple threaded into the top or bottom outlet, then install connection fittings.

Connect Water Supply
Solder the water supply pipes and other risers to the previously installed fittings. Note: Please maintain a minimum 4” distance from the housing while soldering.

Level Mounting
Mount the rough in exactly the right position using the integrated leveling points.

Shut Off Water
After flushing, shut off water using built-in service stops, operated by an Allen wrench or flathead screwdriver. Replace protective cap.

Cut a Hole in the Wall
Trim a 5” diameter hole in the wall material to accommodate the rough.

Trim Includes Function Block
Function block is supplied with trim, not the rough, allowing trim to be ordered later in the process, which may reduce warehousing, theft, and damage due to dirt or frost during the building phase.

Multiple Mounting Options
Multiple mounting points and depth options allow the rough to be installed with any commonly used mounting system.

Extension Set
Even if the rough has been mounted too deeply into the wall, the problem is easily solved with an extension set. The extension set (sold separately) ensures a water-tight seal, keeping the walls free from dampness.

Shallow Extension Set
Limited installation depths are not a problem, thanks to the shallow extension set. Simply installing the set between the tiles and trim allows for installation in walls as shallow as 2¼”.

10° Rotational Symmetry
Even if the rough is installed upside down, the trim can still be mounted to the rough, avoiding costly repairs.

Create Connection Fittings
When using copper pipes, connection fittings should be created prior to installation.

Install Connection Fittings
Clamp the rough in a vise using a ¾” nipple threaded into the top or bottom outlet, then install connection fittings.

Solder the water supply pipes and other risers to the previously installed fittings. Note: Please maintain a minimum 4” distance from the housing while soldering.

Level Mounting
Mount the rough in exactly the right position using the integrated leveling points.

Shut Off Water
After flushing, shut off water using built-in service stops, operated by an Allen wrench or flathead screwdriver. Replace protective cap.

Cut a Hole in the Wall
Trim a 5” diameter hole in the wall material to accommodate the rough.
Shower Trim Installation

**Trim Package Contents**
Escutcheon, carrier plate, function block, support housings, mounting screws, handles, handle adaptors, and assembly instructions.

**Remove Excess Plaster Shield**
Cut the excess plaster shield until it protrudes approximately ⅛" beyond the finished wall.

**Seal With Silicone**
To prevent moisture from entering the wall, seal the joint between the rough and the finished wall with silicone.

**Remove Flushing Insert**
Remove protective cap, then remove flushing insert by removing Allen screw. Remember to shut off the water if necessary using the service stops!

**Install Function Block**
Using the four mounting screws provided, install the function block on the rough. Re-open service stops to turn on water supply.

**Install Carrier Plate**
Use the included plastic screws to attach the carrier plate to the rough housing, preventing noise transfer and water leaks.

**Install the Escutcheon**
Simply fit escutcheon over the carrier plate — no screws or bolts needed. Rubber seal and O-rings on cartridges guarantee a firm hold.

**Install the Handles**
Finally, attach handles with the included set screws.

**Completed Shower**

---

By integrating the iBox Universal Plus rough with ShowerSelect trims, the hansgrohe brand has done it once again. Creating the perfect shower installation has never been so easy. Geometric design and revolutionary push-button control are combined into a sleek package. A simple touch of a button is all it takes to switch functions on and off, or to change the spray modes. Everything works purely mechanically, providing long-lasting reliability and satisfaction. Hansgrohe.

ShowerSelect Trims are available with square or round escutcheon plates.
Care Instructions

General cleaning guidelines:

- Do not use any cleaning agents containing hydrochloric acid, formic acid, chlorine bleach or acetic acid, as these can cause significant damage.
- Do not use any abrasive cleaning tools or devices such as unsuitable scouring agents or sponge scourers. It’s best to clean with a soft, clean cotton cloth. Do not use micro-fibre cloths.
- Clean using the prescribed cleaning agent dosage and with a maximum exposure time of 10 min.
- When spray cleaning, never spray the cleaning solution onto the hansgrohe products; instead, spray onto the cleaning cloth.
- After cleaning, rinse sufficiently with clean water.

Warranty

This limited warranty extends to the original purchaser only. This warranty is non-transferable. Hansgrohe, Inc. neither assumes nor authorizes any person to create for it any other obligation or liability in connection with this product. If you are a consumer who purchased the product for use primarily for personal, family or household purposes, this limited warranty starts on the date of purchase and extends for as long as you own the product and the home in which the product is originally installed. If you purchased the product for use primarily for any other purpose, including, without limitation, a commercial purpose, this limited warranty starts on the date of purchase and extends (i) for 1 year, with respect to hansgrohe brand products and commercial products, and (ii) for 5 years, with respect to AXOR products. The Rubbed Bronze finish is subject to a 3-year limited warranty starting on the date of purchase.

This limited warranty covers only your manufactured product. Hansgrohe, Inc. warrants this product against defects in material or workmanship as follows: Hansgrohe, Inc. will replace at no charge for parts only or, at its option, replace any product or part of the product that proves defective because of improper workmanship and/or material, under normal installation, use, service and maintenance. If Hansgrohe, Inc. is unable to provide a replacement and repair is not practical or cannot be made in timely fashion, Hansgrohe, Inc. may elect to refund the purchase price in exchange for the return of the product. Labor is not included in the warranty.

This warranty is limited to products manufactured by Hansgrohe, Inc. that are purchased from a Hansgrohe, Inc. authorized seller by a consumer in the United States or Canada after September 1, 2019, and installed in either the United States or Canada.
