

Artistic Stone Collection

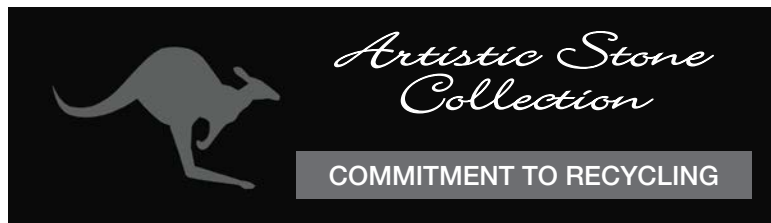

Artistic Stone Australia was founded in 1993. Since then, the company has grown to be the largest supplier of stone mosaics, borders, glass, metal tiles, medallions, and liners in Australia.

With a vast design of modern patterns, mosaics, and tiles and with different textures such as metal, granite, marble, and glass, Artistic Stone creates pieces that are very unique. They have been recognized worldwide for their quality, service, and availability.

Products, Design, Solutions.

Australians are no strangers to conservation and recycling. It is second nature to invent products and systems that conserve water and raw materials when you live on a big island. Artistic Stone Australia is committed to making the world a cleaner and safer place to live. Some of the ways they are doing this are:

- Manufacture products containing post-production or post-consumer recycled materials
- Recycle all wood by-products and scraps
- Recycle all waste paper and cardboard
- Use recycled packing peanuts and cleaners
- Recycle content in re-pack boxes, sample boards, display racks and waterfall racks
- Recycle all pallets and crates

Artistic Stone Australia has developed two recycling logos. Look for these symbols throughout this catalog (with actual recycled content noted for each) and on other Artistic Stone Australia marketing materials and products.

Contains Post-Production Recycled Material

Post-production material is product that was intended to be made into something else. Due to breakage or deviation from the norm, it makes the product unusable for its first intended purpose. In this case, instead of trucking the unused product and dumping it in the landfill, the product is re-cut and mounted as a different item, thus extending the useful life of the original raw material. LEED points are not usually awarded for post-production recycled products.

Contains Post-Consumer Recycled Material

Post-consumer recycled products contain material that was originally sold as a different item. An example would be glass tiles like the Great Barrier Reef line that have a percentage of recycled bottles in them. In this case the product may be LEED eligible.

Interlocking Metal Mosaics sold by 11.25x11.75 sheets

1-1/4x4 Copper Antique
47MURCOP14M

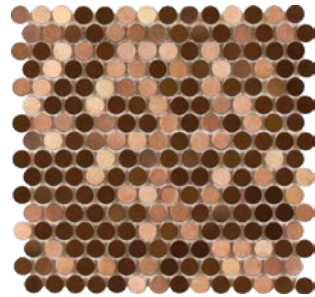

1-1/4x4 Stainless Steel Brushed
47MURSTA14M

Epoxy grouts and pre-mixed grouts are not recommended with copper or colored stainless steel because they can chemically damage the surface. The same reaction can also stain the grout.

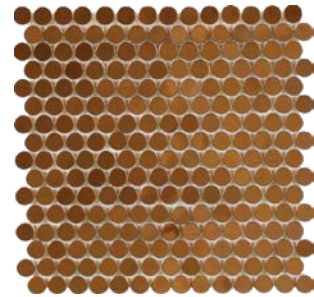

Keep this product more than six inches away from an open flame. Areas of concern would be steam rooms, fireplace surrounds, and backsplashes behind cook tops.

Perth Penny Rounds

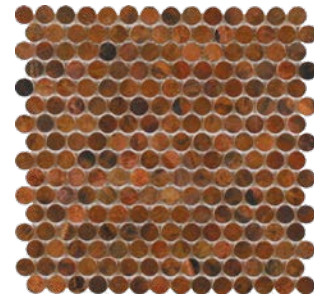

Metal Mosaics sold by 11.25x11.5 sheets

3/4" Copper Brushed
47PERCOP34B

3/4" Copper Polished
47PERCOP34P
